Measure your hand

Two things to consider regarding size and measurement of the hand:

- Circumference of the hand
- Length of the hand

The hand's circumference is measured with a tape measure 20 mm above the thumb (see illustration).

The length of the hand is the distance between the wrist and the tip of the middle finger.

Measure the hand's circumference and the length of the hand.

The length of the hand is the same as the distance between the wrist and the tip of the middle finger.
